

# Interactive Virtual Classroom Technical Requirements

Check your bandwidth speeds by clicking [HERE](#)

## System Configuration Requirements

**Browser:** Chrome, Firefox, or Edge

**Operating System:** Mac OS X, Windows 10, or Windows 11

\*\*Please ensure your Browser and Operating System are the latest version.

## Minimum Internet Bandwidth Requirements

**Note:** Bandwidth requirements will increase with more participants.

### Internet Properties

### Required

Ping

250 ms or less

Download

4 - 6 mbps

Upload

6 - 8 mbps

We recommend connecting via a wired internet connection due to the potential instability of wireless connections. If you connect via a wireless connection, please do not use a public WIFI network.

## Important Notes

Students should use a desktop or laptop. Tablets are not recommended. Phones should not be used for online class.

It is also recommended to use headphones, preferably with a microphone attached or alongside an external webcam microphone. Microphones built into computers often do not capture audio well and may result in difficulty being understood.

For more information or assistance related to ICLS' virtual classroom requirements, please contact [ITSupport@icls.edu](mailto:ITSupport@icls.edu)
